

CURRICULUM VITAE

Jonathan J. Fortney

OFFICE ADDRESS:

Department of Astronomy & Astrophysics
University of California, Santa Cruz
275 ISB (Interdisciplinary Sciences Building)
Santa Cruz, CA 95064
tel: 831-502-7285, fax: 831-459-7285
web: <http://www.ucolick.org/~jfortney>
E-mail: jfortney@ucolick.org

CURRENT POSITION:

January 2008-present, Assistant Professor, Department of Astronomy and Astrophysics,
UCO/Lick Observatory, University of California, Santa Cruz

PREVIOUS RESEARCH POSITIONS:

August 2006-December 2007, Spitzer Fellow, NASA Ames Research Center and Principal Investigator, Carl Sagan Center, the SETI Institute
March 2004-July 2006, NASA Postdoctoral Program (NPP) Research Fellow, NASA Ames Research Center

EDUCATION:

2004 - Ph.D., Planetary Sciences, University of Arizona
Dissertation Title: "The Evolution of Giant Planets," Advisor: W. B. Hubbard
1999 - B.S., Physics, Iowa State University, with Distinction and Honors Program

MAJOR FIELDS OF INTEREST:

Atmospheres and spectra of extrasolar planets, giant planet thermal evolution, planetary interiors, extrasolar planet characterization through transit photometry, formation of giant planets, atmospheres and evolution of brown dwarfs

HONORS and AWARDS:

2008, Kavli Fellow, National Academy of Sciences
2006-07, Spitzer Space Telescope Postdoctoral Fellowship
2006, NASA Early Career Fellowship in Planetary Sciences
2004-06, National Research Council Postdoctoral Fellowship
1999, Phi Beta Kappa, Iowa State University

COLLOQUIA and SEMINARS:

- University of California, Santa Cruz, Department of Earth & Planetary Sciences, 11/2008
- Ohio State University, Department of Astronomy, 10/2008
- University of Virginia, Department of Astronomy, 2/2008
- Michigan State University, Department of Physics & Astronomy, 9/2007
- Carnegie Institution of Washington, Department of Terrestrial Magnetism, 3/2007
- University of California, Berkeley, Center for Integrative Planetary Science, 3/2007
- University of California, Santa Cruz, Department of Astronomy & Astrophysics, 1/2007

- University of California, Santa Cruz, Department of Astronomy & Astrophysics, 11/2006
- Lawrence Livermore National Laboratory, Inst. for Geophys. & Planetary Phys., 10/2006
- The SETI Institute, 8/2006
- Harvard University, Department of Earth and Planetary Sciences, 3/2006
- MIT, Department of Earth, Atmospheric, and Planetary Sciences, 2/2006
- University of British Columbia, Department of Physics and Astronomy, 2/2006
- University of Florida, Department of Astronomy, 1/2006
- San Francisco State University, Department of Physics and Astronomy, 11/2005
- Harvard-Smithsonian CfA, Division of Solar, Stellar, and Planetary Science, 9/2005
- NASA Ames Research Center, Space Science and Astrobiology Division 4/2005
- UCLA, Institute for Geophysics and Planetary Physics, 2/2005
- SOFIA Science Center, NASA Ames, 10/2004
- Observatoire de la Cote d'Azur, Nice, France, 4/2004
- American Museum of Natural History, Astronomy and Astrophysics Division, 9/2003
- NASA Ames Research Center, Space Science and Astrobiology Division, 11/2002
- Lawrence Livermore National Laboratory, 11/2002

OUTREACH:

2005, Judge, National Finals of the Siemens Westinghouse Competition in Math, Science, and Technology

INVITED CONFERENCE TALKS:

- Kavli Frontiers of Science, National Academy of Sciences, 2008. Characterizing Planets around Other Stars
- ISSI Workshop on Planetary Magnetism, 2008. The Structure of Jupiter, Saturn, and Extrasolar Giant Planets
- LANL and LLNL Astrophysics Initiative Workshop, 2008. The Structure, Formation, and Evolution of Giant Planets
- Michelson Summer Workshop—Planetary Transits: Detection to Characterization, 2007. Mass-Radius Relations for Giant Planets
- Extreme Solar Systems, 2007. The Impact of Transit Observations on Planetary Physics
- American Astronomical Society, May, 2007. Luminosity and Detectability of Young Giant Planets
- University of Tokyo Workshop on Development of Extra-solar Planetary Science, 2006. On the Luminosity of Young Jupiters
- High Energy Density Laboratory Astrophysics, Six, 2006. High Pressure Equations of State and the Structure of Jupiter, Saturn, and Exoplanets
- Ultra Low-Mass Star Formation and Evolution, 2005. Young Jupiters are Faint: New Models of the Early Evolution of Giant Planets

OTHER CONFERENCE TALKS:

- American Astronomical Society - Division for Planetary Sciences Meeting #40, 2008.
- IAU Symposium #253: Transiting Planets, 2008.
- Spirit of Lyot, Berkeley, 2007.
- Cool Stars 14, 2006
- Transiting Extrasolar Planets Workshop, 2006

- IAU Colloquium #200
- American Astronomical Society - Division for Planetary Sciences Meeting #37, 2005
- Tenth Anniversary of 51 Peg b: Status and Prospects for Hot Jupiter Studies, 2005
- Aspen Winter Conference on Astrophysics: Planet Formation and Detection, 2005
- European Geosciences Union, 2004
- American Astronomical Society - Division for Planetary Sciences Meeting #35, 2003
- American Astronomical Society - Division for Planetary Sciences Meeting #34, 2002

SERVICE:

Referee for: Science, Nature, Astrophysical Journal, Astronomy and Astrophysics, MNRAS, Astronomical Notes, NASA

Keck Telescope, NASA Time Allocation Committee, 2007-09

Head of Exoplanets TAC, 2008-09

Faculty Search Committee, Department of Earth & Planetary Sciences, 2008-09

Space Interferometry Mission (SIM) Science Studies, Planets & “Super” Panels, 2008

UC Santa Cruz, Dept. of Astronomy & Astrophysics, Colloquium Comm., Spring, 2008

Scientific Organizing Committee, High Energy Density Physics (HEDP) 1 / High Energy Density Laboratory Astrophysics (HEDLA) 8, 2008

Local Organizing Committee, Navigator Program Forum-2007

Spitzer Space Telescope Time Allocation Committee, Galactic Panel, 2007

PROFESSIONAL AFFILIATIONS:

American Astronomical Society, AAS Division for Planetary Sciences, American Geophysical Union

STUDENTS SUPERVISED:

Neil Miller, Graduate Student, 2008-

Megan Shabram, Undergraduate Student, 2008-

Jon Jonson, Undergraduate Student, 2008-

GRANT SUPPORT

Jonathan J. Fortney

CURRENT SUPPORT

Source: National Science Foundation Astronomy & Astrophysics Program

PI: Dr. Jonathan Fortney

Title: “Evolutionary Models of Young Jupiters and Hot Jupiters”

Period Covered by Award: September 1, 2006 - August 31, 2009

Source: NASA Spitzer Space Telescope

PI: Heather Knutson, Harvard University

Title: “Portraits of Distant Worlds: Mapping the Atmospheres of Hot Jupiters”

Period Covered by Award: June, 2007 - June, 2010

Source: NASA Origins of Solar Systems

PI: Dr. Adam Showman

Title: “General Circulation Models of Hot Jupiter Atmospheres”

Period Covered by Award: May, 2008 - May, 2011

Source: NASA Spitzer Space Telescope

PI: Dr. Jonathan Fortney

Title: “Exploring Hot Neptune Atmospheres”

Period Covered by Award: June, 2008 - June, 2011

Source: NASA Spitzer Space Telescope

PI: Heather Knutson, Harvard University

Title: “Mapping the Atmospheres of the Smallest Transiting Exoplanets”

Period Covered by Award: June, 2008 - June, 2011

Source: NASA Outer Planets Research (OPR) Program

PI: Dr. Jonathan Fortney

Title: “A Consistent Evolutionary History for Jupiter and Saturn”

Period Covered by Award: April 1, 2008 - March 31, 2011

Source: NASA Kepler Mission Participating Scientists Program

PI: Dr. Jonathan Fortney

Title: “Giant Planet Science from the Kepler Mission”

Period Covered by Award: October, 2008 - October, 2011

Source: NSF Planetary Astronomy

PI: Dr. Pascal Garaud

Title: “Numerical studies of double-diffusive convection in the interior of giant planets”

Period Covered by Award: September, 2008 - August, 2011
