

Astro18, UCSC, Fall Quarter 2010
Homework 5
Due Tuesday November 16th

Projects: Type out short answers to the questions you originally posed. Comment on any additional and/or interesting information you may have stumbled across while researching the original queries. See Project Timeline below for details.

Chapter 10 Problems:

Review Mathematical Insight 10.1 Then answer problems 58 and 60

Chapter 11 Problems:

Review Section 3.4 on the Nature of Science. Then answer problem 37.
Answer problems 40 and 50.

Chapter 12 Problems:

Answer problem 49

Timeline for Astro 18 Final Project

Nov 12 (Friday): Write up references you're planning on using for the paper. Use proper citation techniques (MLA system). Write up short summary of the resource and what information you're getting from it.

Nov 16th (Tuesday): Type out short answers to the questions you originally posed. Comment on any additional/interesting information you may have stumbled across while researching the original queries.

Nov 18th (Thursday): Each person in the group should write a detailed out-line of their part of the paper. These different outlines should then be merged into an outline of the entire paper.

Nov 23rd (Tuesday): 1st draft of paper due so Jenn and Claire can suggest revisions over Thanksgiving break

Nov 25th (Thursday): Eat lots of turkey/cranberry sauce/pumpkin pie ☺

Nov 30th/Dec 2nd (Tuesday/Thursday): In class presentations!

December 3rd: Final draft of paper due

Section meetings for each group with Jenn and Claire:

November 12th and 16th
